#### PRO BONO PUBLICO

### PREFACE

We take pleasure in submitting Vol. IX of the High Point, N. C., Directory. While no directory is free from errors, we feel sure the High Point directory will rank above the average city directory and will give general satisfaction. Experienced help only has been used in collecting the data for this directory, and if there are any omissions of names it is not due to the fact that the ground was not fully covered by our canvassers, for a house-to-house canvass was made. It often occurs that a person, in giving the information for the directory, overlooks or forgets to give names of persons that should be listed, and in such cases it is not the fault of the publisher that some names are left out. As a rule these omissions are few. Of course, the printers have to make a few typographical errors-they would not be printers if they did not-but as a whole we know that the High Point Directory can be relied upon, and will be found by all who use it to be a very valuable book of information, and one which no up-to-date business man can afford to be without.

We desire to thank our patrons for their liberal support, by which this publication was made possible. We also desire to extend our thanks to our many friends and the public in general for the courteous way in which they supplied us with the proper data. It is a pleasure for us to publish a directory in a city where the people are interested and where they are willing to co-operate with us and lend their aid in the making up of a work of this character as was the case in High Point. This of itself is good evidence that High Point is a good, live, up-to-date city, and a good place in which to live.

About 10% of the people, or 35% of the grown people, own property.

Population 27,000

We shall continue this publication, and promise, you efficient service.

# HIGH POINT CITY DIRECTORY

#### -1927-1928-

### Additions, Corrections, Change of Address, Etc.

Copyright Aug. 1927, by Commercial Service Co., Asheville, N. C.

NOTE—There was some complaint because our High Point directory did not contain certain names and addresses. We sent a man to High Point who called on the Secretary of the Merchants Assa. and an investigation was made. It was found out that practically all of the names omitted were those of newcomers or of parties who had moved after our canvashad been made, and therefore we should not be held responsible. However, we are sending this supplement to our subscribers at our own expense and hope it will demonstrate our desire and willingness to render the best of service.

GIVING NAMES OF HOUSEHOLDERS AND DENOTING
BUSINESS PLACES

Vol. IX

1927

Vol. IX

NOTE:—Streets numerically named are to be found after those arranged alphabetically. All house numbers are arranged numerically following the description and location of each street, giving the name of householder.

Purpose of etar (\*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use; errors often creep in

Dash (-) before name denotes that number is wanting.

# Who is Your Competitor?

What competition do you fear most? The competition from a store which advertises, or the other kind?

Directory advertising—regular advertising—is a vital part of the sales effort of aggressive, optimistic firms. For business enterprises in which such an advertising policy prevails, the outlook is always rosy.
